

The Industry Leader in Cloud Data Protection

Data is at the core of the digital transformation, and it fuels every aspect of business. From mission critical applications to end user productivity, data is growing at an astonishing rate from an increasingly diverse set of applications and devices. Any loss of data puts businesses at risk. It's imperative to protect and manage it.

Druva™ is on a mission to make data resilient, secure, accessible, and actionable for organizations around the world.

Who is Druva?

Druva enables cyber, data and operational resilience for every organization with the Data Resiliency Cloud, the industry's first and only at scale SaaS solution. Customers can radically simplify data protection, streamline data governance, and gain data visibility and insights as they accelerate cloud adoption. Druva pioneered a SaaS-based approach to eliminate complex infrastructure and related management costs, and deliver data resilience via a single platform spanning multiple geographies and clouds. Druva is trusted by thousands of enterprises, including 60 of the Fortune 500, to make data more resilient and accelerate their journey to the cloud.

Trusted by thousands of enterprises

“Cloud-first is a no-brainer, and the Druva platform aligned with our goals for digital transformation.”

Jeffrey Shilling
 CIO, National Cancer Institute

“What we accomplished with Druva in just three months probably would have taken us a year and a half to do before. COVID-19 motivated everybody to have a singular focus on our cloud strategy and Druva has been a catalyst of Katz achieving that 5X faster.”

Robert Lyons
 CTO, Katz Media
